

Relocated FDA Shuttle and Transit Stops

Starting Monday, December 29, 2008 the FDA Commuter Shuttles and the Public Transit Buses will stop on the circle in front of Building One. The FDA Commuter Shuttle stop will be located on the north side of the circle and the Public Transit Bus Stop will be located on the south side of the circle. The attached graphic identifies the new locations.

After Wednesday, December 24, and Friday, December 26, the FDA Shuttle and the Public Transit Buses, respectively, will no longer stop at the north end of the North Garage. The relocation of the shuttle and transit stop provides a central location for transit passengers and allows the Public Transit Agencies to serve the White Oak site more efficiently.
